SABBIT AHAMED

AI AUTOMATION ENGINEER | AI SYSTEMS BUILDER

Email | LinkedIn | Radyan Marketplace | Fiverr

PROFESSIONAL SUMMARY

AI automation specialist focused on building practical systems that reduce repetitive work and improve business operations. Experienced with n8n, AI agents, API integrations, lead and CRM automation, data extraction, JavaScript-based workflow logic, and low-code business systems.

EXPERIENCE

Radyan Marketplace - Automation & E-commerce Operations

radyanmarketplace.com | 1 year

- Built and maintained automation workflows supporting e-commerce and business operations.
- Worked with APIs, webhooks, data extraction, lead/CRM processes, and AI-assisted automation.
- Debugged and optimized workflows to reduce repetitive manual work and improve reliability.

Freelance Automation Specialist - Fiverr

Fiverr profile | Oct 2025 - Present

- Build n8n workflows, AI agents, API integrations, CRM automations, email automations, and social-media workflows.
- Create custom logic for lead generation, web scraping, data sync, and business process automation.

SELECTED PROJECTS

AI Lead Qualification & Follow-up System
Automated lead capture, qualification, routing, and personalized follow-up.

Web Data Extraction Automation
Collected and structured product/website data for downstream automation and analysis.

AI-Powered Business Workflows
Connected AI models, APIs, email tools, databases, and business apps in multi-step n8n workflows.
